EXERCISE – 10

Question

To execute the following commands in Kali Linux Operating System:

1. Free command
2. Sort command
3. History command

Aim

To execute and display the results of the free, sort, and history commands in Kali Linux.

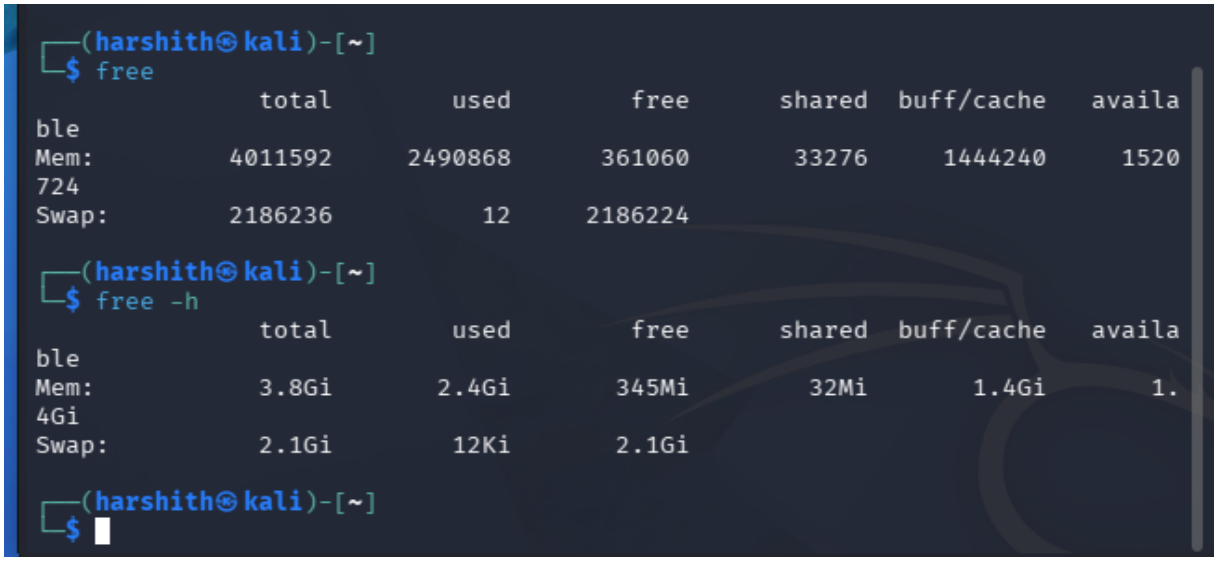

1. FREE COMMAND

Command:

free

Use:

The free command is used to display information about the system's memory usage, including total, used, free, shared, and available memory.

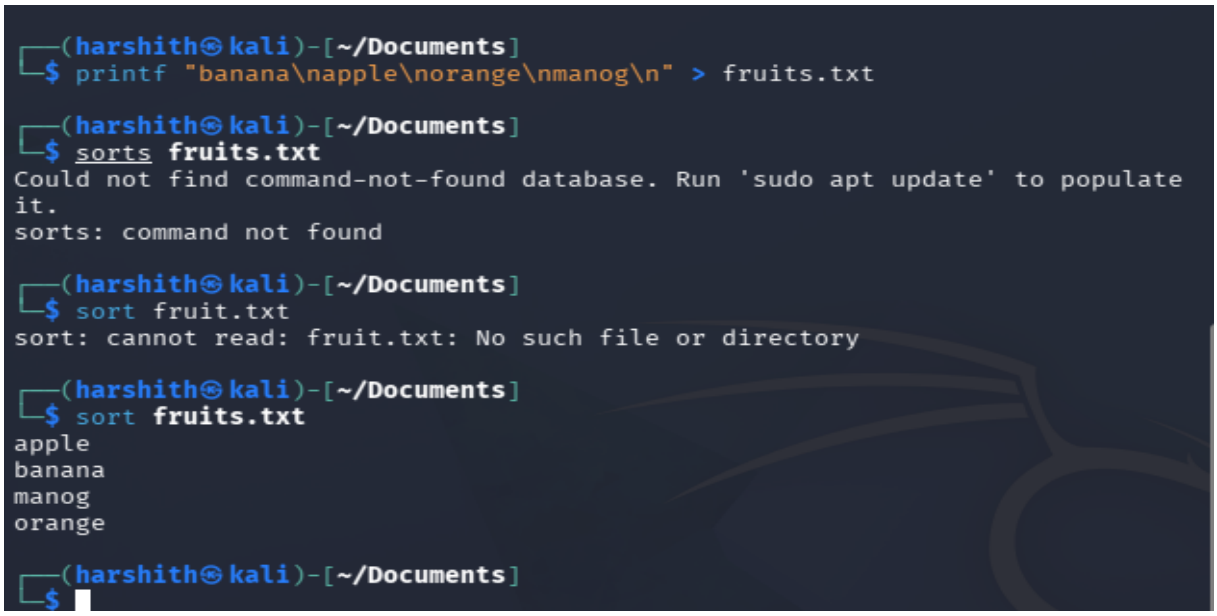

2. SORT COMMAND

Command:

sort fruits.txt

Use:

The sort command is used to arrange lines of text in alphabetical or numerical order.

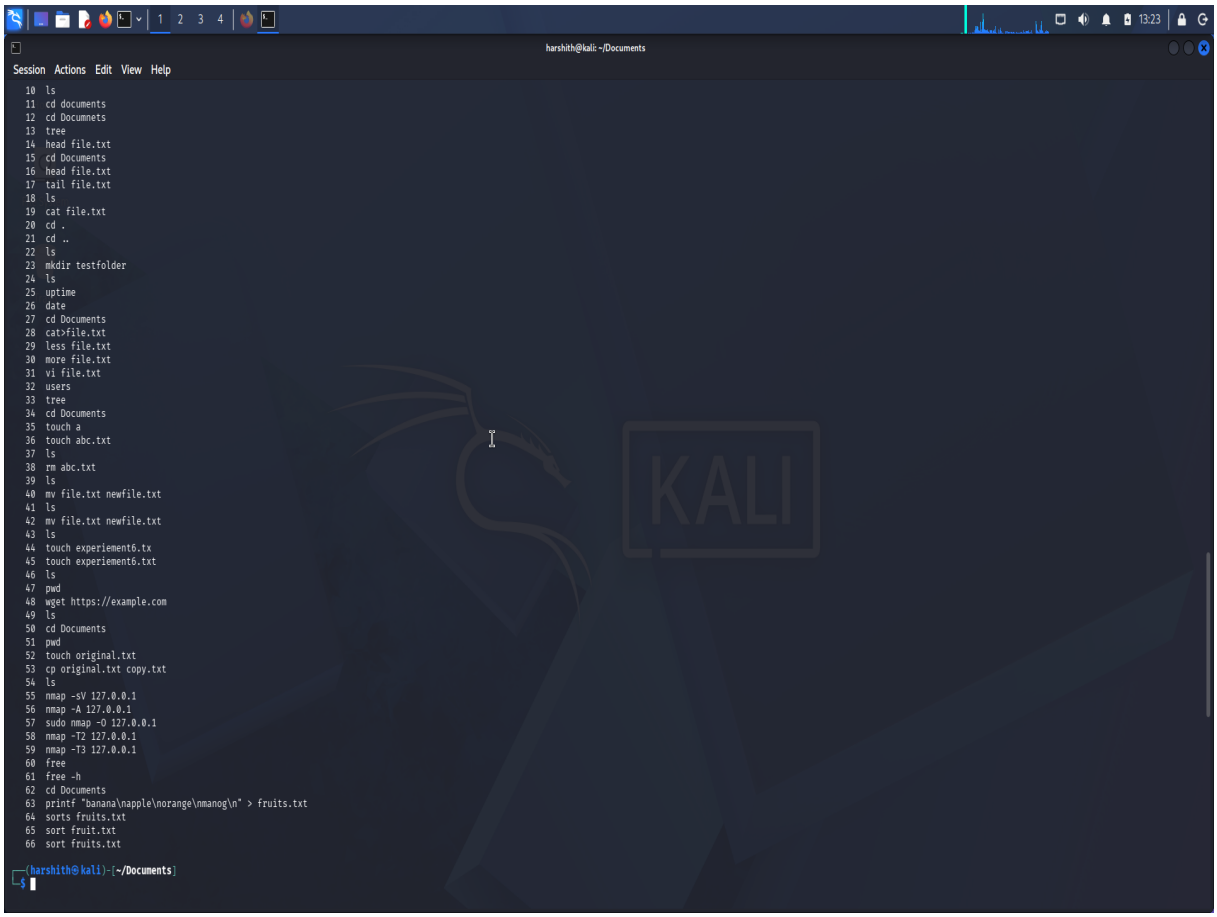

3. HISTORY COMMAND

Command:

history

Use:

The history command is used to display the list of commands previously executed in the terminal.

Result

Thus, the free, sort, and history commands were successfully executed in Kali Linux and their results were displayed.
