EXERCISE – 3

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. Tree
2. Head
3. Tail

Aim

To execute and display the results of the tree, head, and tail commands in Kali Linux.

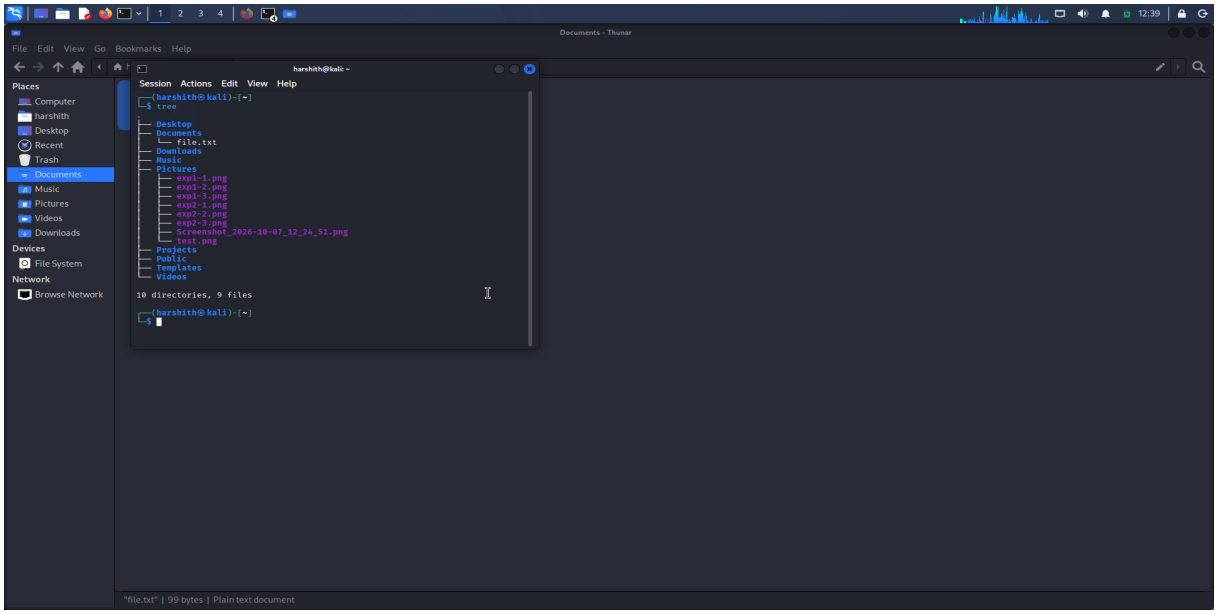

1. TREE COMMAND

Command:

tree

Use:

The tree command is used to display the directory and file structure in a tree-like format.

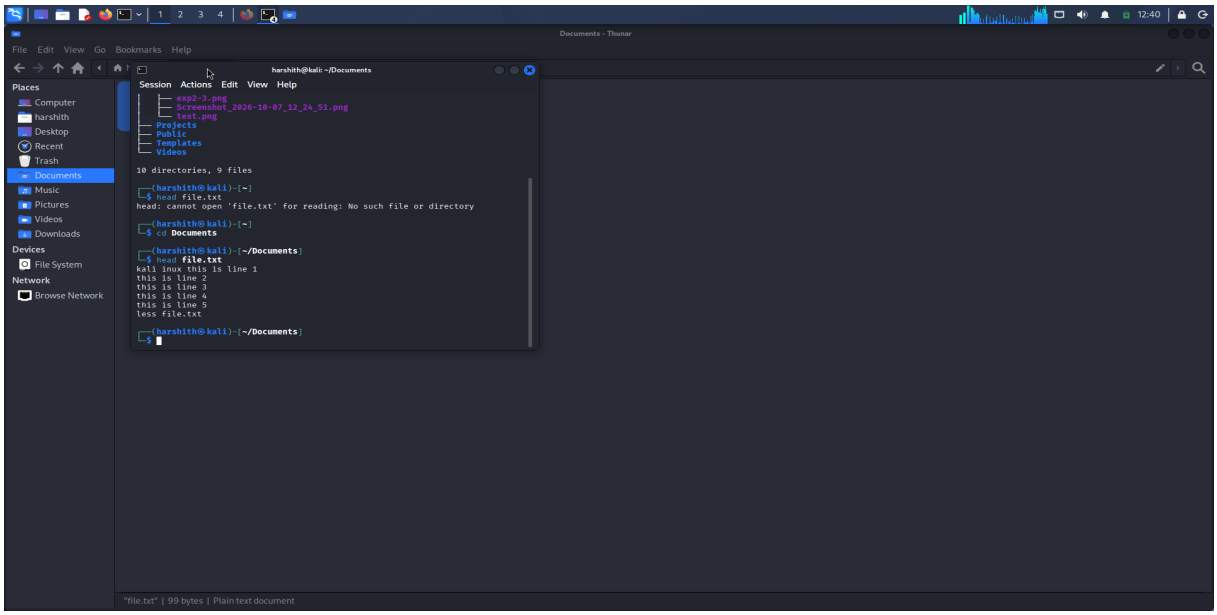

2. HEAD COMMAND

Command:

head file.txt

Use:

The head command is used to display the beginning portion of a file.

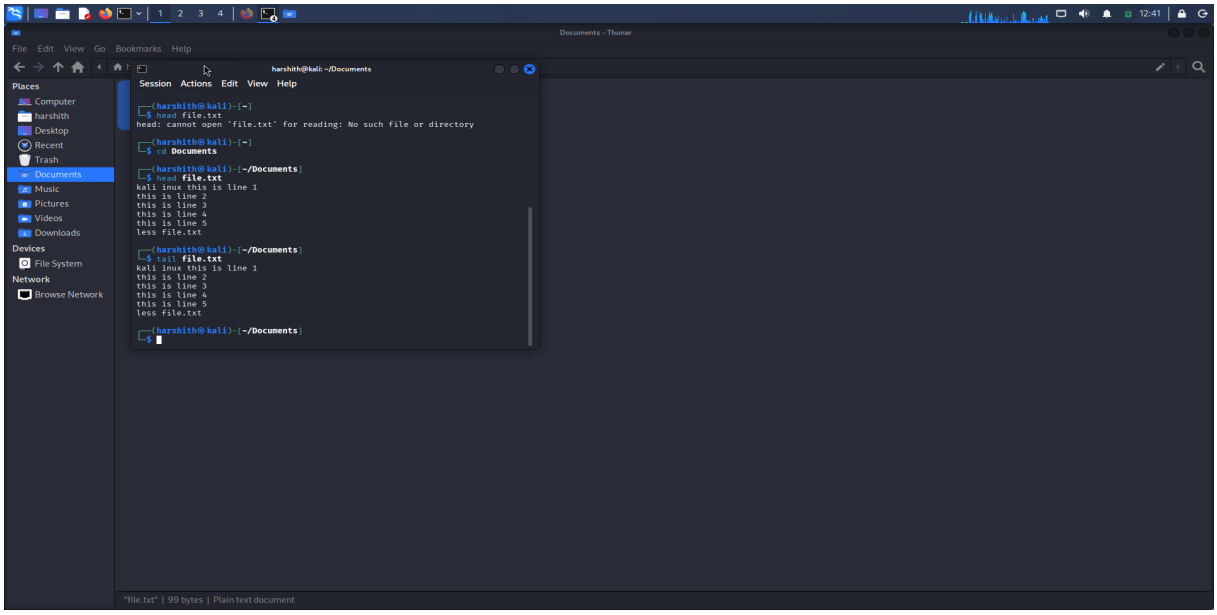

3. TAIL COMMAND

Command:

tail file.txt

Use:

The tail command is used to display the ending portion of a file.

Result

Thus, the tree, head, and tail commands were successfully executed in Kali Linux and their results were displayed.
