EXERCISE – 5

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. uptime
2. date
3. mv

Aim

To execute and display the results of the uptime, date, and mv commands in Kali Linux.

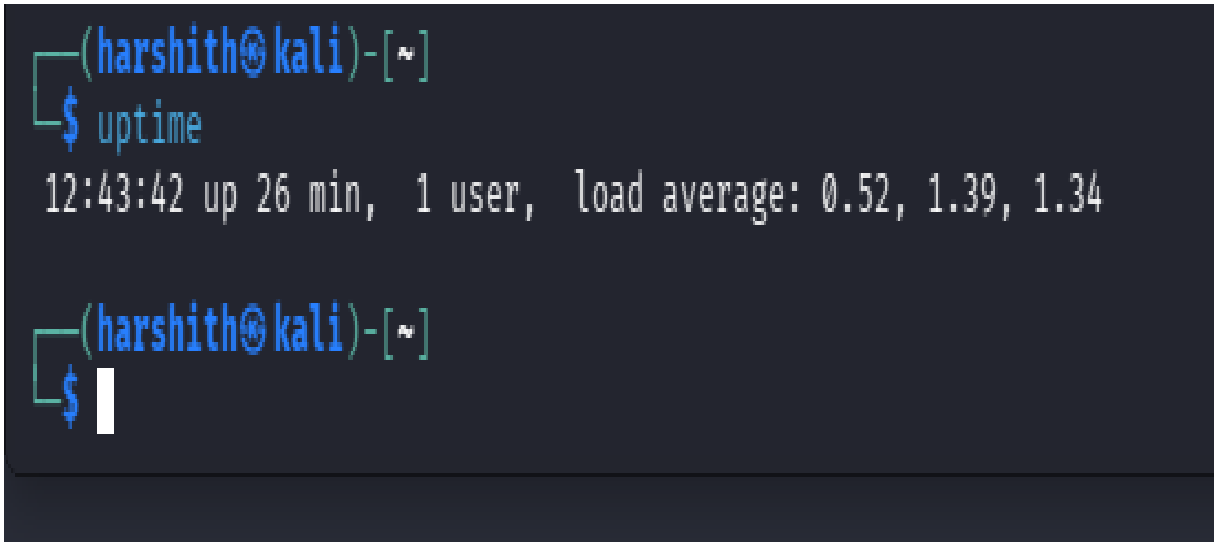

1. UPTIME COMMAND

Command:

uptime

Use:

The uptime command is used to display how long the system has been running, along with the number of users and system load.

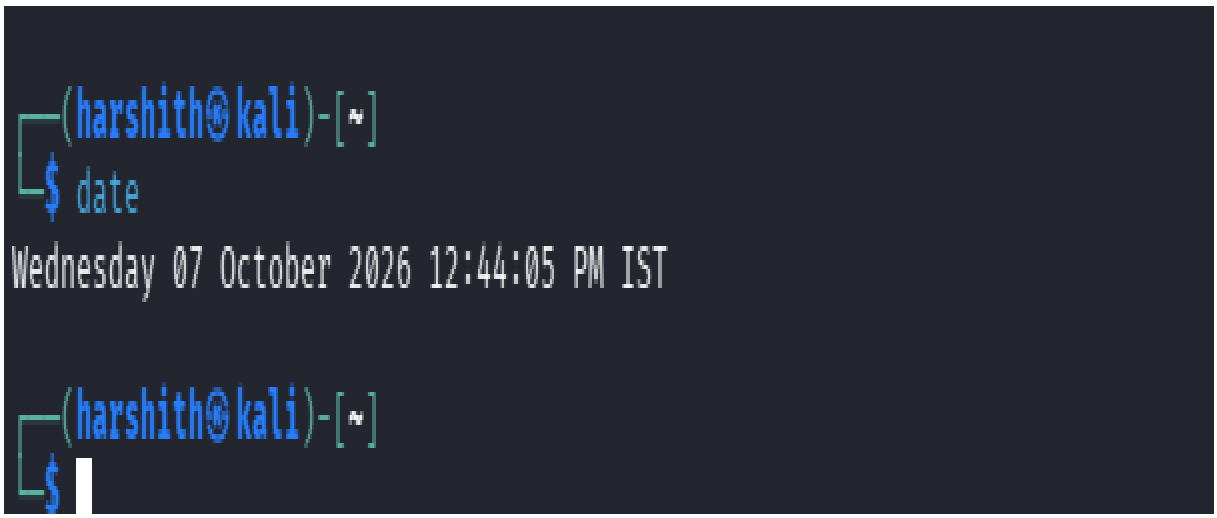

2. DATE COMMAND

Command:

date

Use:

The date command is used to display the current system date and time.

3. MV COMMAND

Command:

mv file.txt newfile.txt

Use:

The mv command is used to move or rename files and directories.

Result

Thus, the uptime, date, and mv commands were successfully executed in Kali Linux and their results were displayed.
