EXERCISE – 6

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. touch
2. pwd
3. wget

Aim

To execute and display the results of the touch, pwd, and wget commands in Kali Linux.

1. TOUCH COMMAND

Command:

touch experiment6.txt

Use:

The touch command is used to create an empty file or update the timestamp of an existing file.

2. PWD COMMAND

Command:

pwd

Use:

The pwd command is used to display the present working directory.

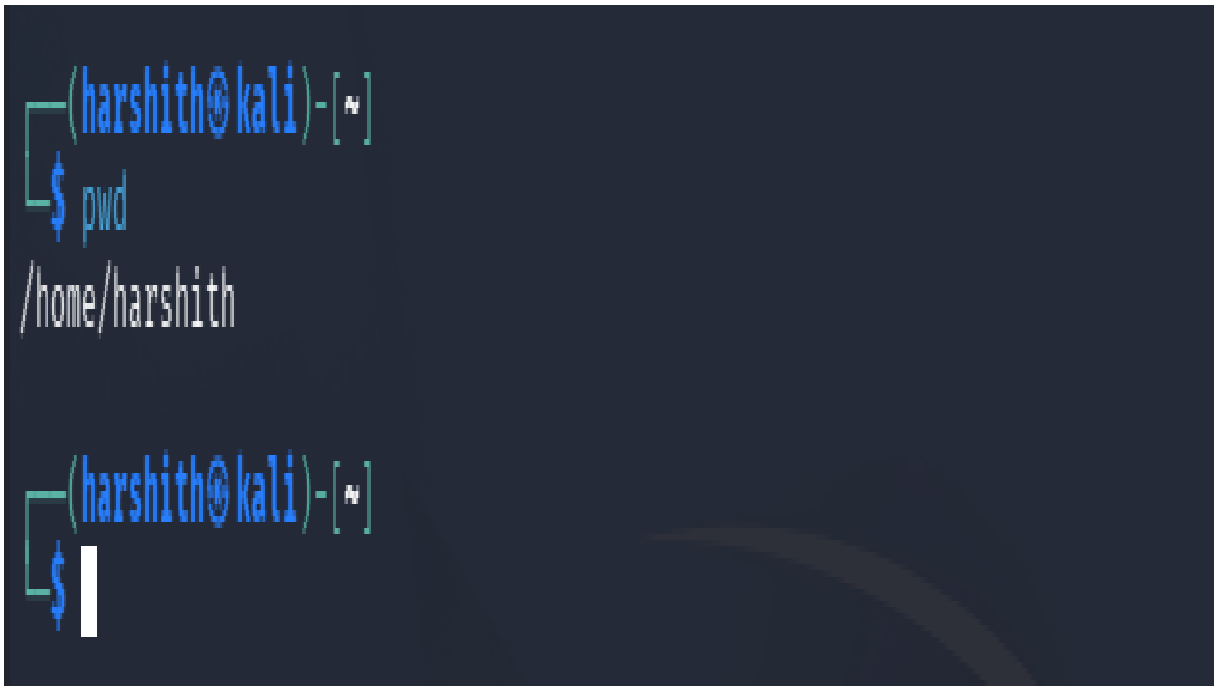

3. WGET COMMAND

Command:

wget https://example.com

Use:

The wget command is used to download files or web resources from the internet.

Result

Thus, the touch, pwd, and wget commands were successfully executed in Kali Linux and their results were displayed.
